RE: Fall, 2009 [Inspection Vendor Fair & Education Exposition](#)

Remember the personal contact we had at the "old" expo? Not to mention the fun? Well, Mike Casey and Kevin O'Malley are bringing it back. We are planning an event like no other, of course in Las Vegas, for the fall of 2009.

Here are some details: This will be a vendor focused/created conference. Beginning on a Sunday evening with exhibit hall reception the two following days will be vendor sessions in the morning with business/technical education in the afternoons. Breakfast and lunch will be in the exhibit hall for maximum exposure. AND we will bring back Race Night on Monday evening!

We will offer standard, gold and platinum participation levels at reasonable fees. Included will be booth with numerous sponsorship opportunities. And a twist – in exchange for helping vigorously advertising this event we will offer a profit share, depending upon participation level – to vendors! Just think, you could cover the cost of your participation.....We believe this event will be the "go to" conference of the year and to come.

We are planning the details now. Please contact us to advise your interest level as soon as possible!
